

Tool

Care coordination

This tool is based on messages from the NICE guideline on social care for older people with multiple long-term conditions, which recommends a single, named care coordinator (<https://nice.org.uk/guidance/ng22>). It enables you to think through how you can support care coordination for people with dementia.

There is no-one there	There is someone there
<ul style="list-style-type: none">> No-one I can turn to> No clear answers> No clear contact <p>How do I avoid this?</p>	<ul style="list-style-type: none">> Someone I can trust> Who is helpful> And easy for me to find <p>How do I get closer to this?</p>
