

Tool

Person-centred timeline

This tool enables you to talk to someone with dementia about the future in whatever way is helpful to them, and to start to plot how things will change and what they want to happen.

Me now

How dementia affects me

What is important to me

The near future – as things change a bit

How dementia will affect me

What will be important to me

Tool

Person-centred timeline (cont.)

This tool enables you to talk to someone with dementia about the future in whatever way is helpful to them, and to start to plot how things will change and what they want to happen.

The medium future – as things change a lot

How dementia will affect me

What will be important to me

The far future

How dementia will affect me

What will be important to me
